Tony was a beautiful baby boy. Perfectly healthy and well formed. The mother, Susan remarked to her husband James that Tony got a little stiffy everytime she nursed him and wondered if that was normal.

They all slept together and that night as soon as Tony started to nurse he sprang a boner. Susan giggled and said the baby must have gotten a load of his daddy's genes as she saw how hard James was. James frantically fucked her while the baby nursed and he had a huge orgasm.

She didn't know that James spent hours on his computer masturbating to nude young boys. Now he was in heaven with a beautiful little boy of his own. Safe from the worry of being found out and arrested if he actually tried meeting a boy.

James loved his little boy, loved bathing him and rubbing his little prick with soap. Once he got so turned on that he masturbated and washed his little stiffy with his fresh warm cum. Later, during Tony's nap James leaned over and sucked his son's stiffy and loved it. He was slowly giving in to his gay urges with his son.

He couldn't wait til his wife went to visit her mother. Little Tony was 5 years old now and loved being a big boy, nude with his father. Tony still slept with his parents and James made sure he was awake when he fucked his wife and got his cock sucked off. Tony learned that his dad's hard cock was a sign of love. He learned that his father loved watching him rub his small cock to show his father he loved him too.

By the time he was 12 his hormones had started to kick in and he really enjoyed rubbing his growing cock in front of his dad. By this time his mother had moved out and deserted them and he and James were nude in their apartment most of the time.

He knew his dad sucked him while he pretended to nap. It felt so good. He

wondered how it would feel to suck his dad's large cock but was too timid to ask.

Tony decided to try something. During nap time he waited until James leaned over to suck him and he reached up and pulled his father's head down further and came in his mouth. James pulled off in shock but Tony reached up and pulled him down and kissed him, sucking his cum from his dad's mouth.

He took his dad's hand and had him lay next to him. He knew this was a good time because his dad's cock was raging hard and leaking pre cum. He said he was glad his mother had left because she never would have understood his need to love his dad. He told his dad he was actually awake and loved that he had been sucking him.

Tony said it was his turn to please his loving father and he wanted to suck him off. He looked his dad in the eye as he took his wet cock in his mouth and loved the taste and feel of cock. He held his dad's balls and was rewarded by a cry of pleasure from his dad as he sucked him until warm cum flooded his mouth.

Tony said he had always felt like he should have been a girl and wanted to be his daddy's little girl, a girl who wanted to make real love to her dad. To suck him off like mommy did and let him fuck his ass like mommy's cunt.

Before James could cum up with an answer Tony had his throbbing cock in his mouth and gave him a mind shattering blow job, gulping cum down his throat. He was the perfect little cock sucker.

Two years later Tony had become Toni. They had moved to a new area and Toni went to school as a 14 year old girl named Toni. She had long hair and a winning smile. Everyone loved her, especially her male teachers. There was just something exciting about her. No one questioned the fact that she was too bashful to shower nude with the other girls.

James couldn't wait for her to get home from school. She would cum skipping up the walk, long hair in her eyes, pretty little pleated skirt, bobby socks and loafers, and a white blouse and fucking horny. Little girl panties kept her hard cock from protruding.

She stood in front of her nude father, legs spread, hands on her hips, giggling and saying he must love her from the looks of his hard cock. She was so beautiful, slender, nice legs, smooth white hairless skin that was so nice to kiss and pretty feet in her bobby socks.

She said she had a surprise for him and took him to the bedroom where she handed him a jar of vasoline. She got on her hands and knees on the bed, pulled her skirt up, her panties aside and told him that it was time that he fucked her like he had mommy.

His cock was about to explode as he took his finger and stuck a blob of vasoline in her brown pucker hole and rubbed it all over his cock. She told him not to worry, she had been fucking herself with one of her mom's dildos to prepare herself for his big cock.

Toni moaned as James rubbed his cock head on her little hole and then gave a little push and his cock slid into her very depths, warm moist depths. He asked if he was hurting her and she said to keep fucking, it felt wonderful. James was in heaven, his wife's boring cunt never ever felt this good.

He took her smooth hips in his hands and fucked faster and faster until he released huge streams of cum in her ass cunt. As he pulled his spent cock from her fucked hole she sucked his slimey cock and said she could use more fucking. He said he was fucking wasted and he might need help and laughed. She didn't laugh. Instead he watched his little girl frantically jacking herself while fingering her fucked hole.

By the time Toni was 16 years old she was a single minded fucking machine that was wearing her father out. She was awesome at 5'4" tall, 110 pounds, long slender legs, milky white smooth skin, shaved pubic area with a man sized 7" cock and smooth white balls. She could shoot a stream of cum four feet.

James had introduced her to wine and marijuana to calm her but it had back fired, making her a wild dirty mouthed demented slut who was high most of the time. One night he had too much to drink partying with her and passed out. When he finally came to he saw her standing there looking at him. Her legs were spread, hands on hips wearing nothing but black stockings, black

garter belt, high heeled fuck me shoes and a raging hard on slippery with pre cum.

She told her dazed dad that she was motherfucking horny for more cock in her dirty ass cunt as she slowly stroked her huge shiney prick with one hand and took a huge hit from her joint with the other. She told him to suck her or fuck her or she was going to fucking jack off again.

He took her rigid cock in his mouth and about choked on the big load she blew down his throat. He couldn't get his cock hard again for her moist ass that he had fucked earlier.

She told her father that she loved him but maybe he would be open to letting someone else fuck her so he could rest. The fucking slut was stroking again, glassy eyed and stoned. He had an idea.

He had her sit down and he knelt between her open legs and kissed her leaking cock. He said he had an old friend, Rick who he used to jack off with talking about taboo subjects. Rick said he had a 13 year old neighbor boy who walked around in the summer letting his cock bulge show. He wanted to kiss him and suck him off but was afraid of getting in trouble.

Toni said he should call his fucking perv friend and have him cum out for a visit. After James told Rick about his girly son Rick said he would fly right out.

The afternoon before Toni and James went to the airport to pick up Rick Toni took a long bubble bath, saving her legs and pubic area and painting her toe nails. James noticed that she was so excited that she smoked several joints and drank several drinks. As she steadied herself to get out of the tub her dad had never seen her so fucking turned on and hard. She was like any slender 16 year old who was pretty, except for her huge cock and big cum filled ball sacks.

She spent a lot of time on her long hair and make up, red painted lips ready for cock. Put on a tiny bikini panty with just thongs to hold them on, open to the back leaving her brown puckered ass cunt open for cock. She drunkenly giggled as she finger fucked a glob of vasoline in her hungry hole.

The small silk panty barely held her leaking prick. Then black pull up

stockings over her slender smooth legs and high heeled shoes. She picked out a short black party dress that barely covered her white thighs.

She attracted a lot of attention as her father helped her through the airport. She had to sit down she was so fucking high. She hoped the motherfucker was as awesome as her dad told her he was. The vasoline in her ass hole was squishy and turned her on even more.

At least the motherfucker was good looking and pretty well built for an older man as James rose to greet him. She saw that he had nice tits through his thin white shirt. The cock sucker either had a large banana hanging down his pant leg or a huge cock. She giggled at the thought of a banana.

Her dad introduced Rick and she held out her little soft limp hand for him to kiss. She gave him a suck my pretty cock smile and his big babana twitched and left a little wet spot.

As soon as they were in the empty parking garage her dad and Rick grabbed each other and started kissing and rubbing each other's cock bulges. Toni stepped in between them and told Rick he could fuck her dad anytime later. Right now she was fucking high and horny and needed a fucking smoke and more wine.

On the way home she sat between them and lit up a joint and finished a bottle that she had left in the car. Rick rested his hand on her bare thigh, just above her stocking and Toni spread her legs a bit and put her head on his shoulder.

She whispered in his ear that she hoped he wouldn't mind if he found a horny cock in her panties. Her dad told Rick that he might find her horny cock in his ass hole if he played his cards right.

She had passed out by the time they got home. They carried her in and laid her on the couch, both sitting next to her. Rick put his arm around James' shoulder and told him he loved him. James looked up and found himself kissing Rick, tongues in each others mouths.

Toni came to and found her father and Rick both naked with hard cocks hugging and watching her. James told his daughter that he and Rick loved each other and Rick was moving in with them if that was ok.

Toni said she would love to have two daddys and crawled over and took a cock in each hand and kissed each one. She got off of the couch, stood up swaying and let her dress drop to the floor. The little fabric of her bikini panties was soaked with cum and held out from her slender body by her full 7" prick.

She told her daddy Rick that her fucking cock was about to explode and a good daddy would suck her off. Rick took her throbbing cock and squeezed it until the head was red and shiney with pre cum and then took her young ass in both hands and pulled her swollen meat deep in his mouth. She started humping his mouth and said he was a hot motherfucking cock sucker. She blasted streams of cum down her new daddy's throat as he gulped and gagged.

Then she bent over in front of him and spread her brown ass cunt and told him to ram his cock deep in her vasalined slippery cunt. Rick took her hips in both hands and rammed his big fucker deep in her moist and warm cunt. As he was pounding her she told him that he was also a motherfucking hot ass fucking daddy.

Daddy James was under her to catch the cum and ass juices as Rick pulled his spent fuck meat from her dark place. He then took Rick's spent slimey cock in his mouth and sucked him clean.

By the time Toni finally passed out James and Rick breathed a sigh of relief. Toni had fucked them completely dry. James took Rick in his arms in their bed and kissed him, tasting Toni's cum and ass juices and told him loved him. Rick said he loved him too as he felt James' cock enter his ass hole, deeply probing.

A perfect loving family.

I would love comments and answer each email.
